touth Carolina.

YORK, Nov. 25 .- The Herald's special from Columbia, S. C., says it is anticipated that if the Board of Canvassers and United States District Attorney Corbin are committed to jail to-day for contempt, Judge Bond, of the United States Circuit Court, will release them on a writ of habeas corpus, and should on a will of habeas corpus, and should this be done the Supreme Court will surely rearrest and recommit them. If this operation continues the posse committatus will be called out on the one side, and perhaps United States troops on the other. It is rumored that the State-house will be taken possession of Monday by United States troops, but the report can not be traced to any authentic source. authentic source.

COLUMBIA, S. C., Nov. 25 .- The Supreme Court, after refusing to grant any further time for the Board of State Canvassers to "nawer why an attachment should not : issued against them, issued an order to the Board that unless the Board of Canwassers met by 9 o'clock this morning and resumed its functions under the supervision of the Court the members of the Board would then be arrested and placed in jail.

COLUMBIA, Nov. 25-2 P. M .- The Supreme Court has just entered judgment and committed all members of the Board to jail until released by order of the Court.

The case of United States District Attorney Corbin, counsel for the Board, is now being heard on the charge of contempt. There is great excitement. Florida.

NEW YORK, Nov. 25 .- The Herald special from Tallabassee, Florida, says the decision of the Court on the application for an injunction against Gov. Stearns and a mandamus compelling the Board of Canvassers to commence counting the of Canvassers to commence counting the votes will be rendered probably to-day, and almost certainly in favor of the Democrats. It is said an appeal will then be made by the Republicans to the Supreme Court. Two members of the Supreme Court have arrived in the city. The Democrats are in receipt of scores of telegrams from all parts of the North and West urging them to stand firm, and declaring they shall be backed to the very utmost. The West especially seems to be excited.

LOUISVILLE, Nov. 25.—The complete official returns received elect ten Demonstration Congression of the St. Description of the St. Descrip cratic Congressmen-a full delegation. Total votes cast, 258,860. Tilden received 160,445; Hayes, 98,415. In 1875 Harlan, Republican, received 90,795; McCreary, 120,876. The Democratic gain is 33,469, and Tilden's major-ity 62,030.

Louisiana.

NEW ORLEANS, Nov. 25-After a good deal of preliminary business, among which was the refusal to acceed to the request of the special correspondents to be present at the meetings, the board took up returns from three contested parishes-East Baton Rouge, St. Tam-many and Iberia-were taken. East many and Iberia—were taken. East
Baton Rouge has seventeen voting
places, but the returns, when opened,
were from only seven. The law requires
the Commissioners at each pollingplace, within twent-four hours after the
close of the polls, to make a return of the
votes cast to the Supervisor of Registration of the parish, who, within twenty-four hours after receipt of the returns

Statements of violence or intimidation at any poll, when alleged, are required to be attached to, and forwarded with, the consolidated returns. East Baton Rouge is twelve hours distract trans New Octans. The returns the consolidated retu tant from New Orleans. The returns from that parish were not sent by mail, and were not filed with the Returning Board till November 23. Many of the affidavits accompanying the same, charg-ing intimidation, were sworn to in New Orleans, some of them as late as No-vember 22.

The total vote of the parish, as ascer-

tained from returns of the Commissioners at the politing places, was 2,233 for Tilden and 1,626 for Hayes; but the Supervisor of Registration, by consolidating returns from only seven polling dating returns from only seven polling places, leaving out the other even, and omitting to send up the original returns from some, makes a return of only 1,102 for Tilden and 1,477 for Hayes. Affidavits have been filed stating that the Supervisor in this parish, and in every other parish in the State, is a Republican; that returns from fourteen parishes are still missing; that several of the missing returns were and had been in missing returns were and had been in the city of New Orieans for days, in the hands of persons who were not Super-

risors. Till the return from East Baton Rouge was opened it was not known to the Democrats what affidavits accompanied it or the returns from what polling places were rejected. The Democrats compiain bitterly of the action of the Board and Supervisors in regard to this parish. After much discussion the re-turns of East Baton Rouge were laid

[From J. B. McCormick's Special to the En-quirer.]

The Republican programme is, I learn, to have their Electors here on the 5th. Then the Returning Board will hold exclusively secret sessions, return Hayes Electors chosen with the en-The next twenty-four hours probably tire Radical ticket, and adjourn sine die. The Electors are then to assemble immediately, cast their vote for Hayes and Wheeler, and with the mem-bers of the Returning Board leave the ofty; but, before doing so, Kenner and Casanave's resignations are to be secured by the Radical leaders in order to prevent any subsequent action through the Courts. Wells and Anderson being the only members, then the duty of filing the vacancies will devolve upon them, and they will control the Board. It is unnecessary precaution, however, as four of the five Supreme Court Judges are in entire sympathy with Grant and Packard, and it by any possibility a question should be raised in that Court,

which is the only one having jurisdiction, the decision would sustain the Radical programme, even though the case was plainly one which should be decided otherwise.

The Louislana Returning Board refuses still to elect as a member the gentleman proposed by the Democratic Committee, learing lest a combination will be made with certain members of the Board. Mr. with certain members of the Board, Mr. with certain members of the Board. Mr. Kennedy, the gentleman nominated by the Democrats, is a Bank President, and in politics a Liberal Republican, and considered by the entire community as a man of the strictest integrity and honesty. The distrust is so great, however, among the several members of the Board that they hardly know whom of their own number to place confidence in.

[W. H. Roberts to the Commercial.]

The Democrats visiting here are in constant receipt of letters from the that State. Scarcely any Government North, stating that the tide of public opinion there is very much against the upfair counting in of the Hayes and Wheeler Electors, and that Republicans, as well as Democrats, condemn in strongest terms any such assumption of authority by the Returning Board. [Dr. Redneld to the Commercial.]

Large numbers of witnesses from the bull-dozed parishes arrived at the Custom-house yesterday and to-day. I spent several hours among them, talking to witnesses and examining affilavits. Unless the sworn statements of these people can be overthrown, the Democrats need not attempt to convince the country that they got their majority fairly.

One woman testified that the bulldozers took her busband and son out of bed, at 3 o'clock in the morning, and killed them. Her story is almost too horrible for belief, yet she tells it in a straightforward, simple way, that car-ries conviction. Her daughter saw the whole affair, and there is no discrepancy between the witnesses.

Two weeks before the men had been warned to leave in ten days, but were

advised by white friends to remain, as but little significance was attached to the anonymous warning. A copy of the proceedings of the Coro-ner's inquest upon the bodies of the murdered men substantiate the story. This

FRIGHTFUL ACCIDENT.

Caught in a Driving-wheel.

About 9 o'clock this morning a German farmer named Peter Hensler, aged about forty-nine years, who lives near Delhi Station, in Green Township, called at the brewery of Schaller & Gerke, corner of Plum street and the canai, for the purpose of getting a wagon load of malt sprouts, as was his custom.

On going to the basement of the establishment, where the machinery is situated, his coat, a long-tailed one, was caught in the flywheel which makes fifty-five revolutions per minute, and the poor man was dragged into the pulley, which carried

him around four times.

As soon as possible the engineer, who witnessed the accident, shur off steam and extricated Hensler, when it was ound that his left arm was broken in several places, and his head was shocklingly builed.
